OUR MANIFESTO

Our focus as founders of iMeg always was to co-create a society,

- 🌸 where a collaborative living between the young & old is in focus,
- 🌸 which above all shall strengthen a kin-like togetherness of the families,
- 🌸 where we act for and with each other,
- 🌸 where we give out of joy without any expectation,
- 🌸 where everyone who contributes, does it voluntarily, at his self-chosen extent and time, and even more firstly for his own further development.

Within a family/ community lived in the iMeg-attitude everyone holds his self-defined role and does, what he can do best and/or which is his passion – therefore every contribution has the same worth.

By making our own individual decisions for ourselves as well as during our actions for and with each other, every single one of us automatically contributes to the development/ raise of consciousness for our community – for **a new sovereign society living an attitude supporting one another.**

As for this new society and within the iMeg-community **especially children lie close to our hearts**, our thoughtfulness is with them and with **their natural inherent passion for live and learning**, as well as to preserve and let bloom their already unbearable wide range of potentials.

This thoughtfulness and attitude in our hearts shall **also be a gift for ourselves as adults**, as then we can **win back our own easiness, passion and determination** and therefore **live this harmony & balance within our families.**

Together and with this purpose in our hearts, we will master everything and enjoy the path – life! ❤️

Love, the iMeg Founder Team
